Subject: Press Release on the Activities of the Banking Agency of the FB&H Regarding the Rise of the Exchange Rate of the Swiss Franc

In order to resolve the situation resulting from the sudden and extremely high rise of the exchange rate of the Swiss franc in relation to the euro, and therefore in relation to the KM, and in order to help citizens who are customers of loans with a currency clause in Swiss francs, on 20.01.2015. representatives of the Banking Agency of the Federation of Bosnia and Herzegovina held a meeting with representatives of the bank that, in the system of the FB&H, placed most loans with a currency clause in Swiss francs.

The Agency suggested to representatives of the Bank that they, in addition to the existing options and modalities, attempt to offer further opportunities to borrowers in order to mitigate the negative effects of the rise of the Swiss franc.

The Agency will continue intensive activities in the interest of finding solutions for citizens who are customers of loans with a foreign currency clause in Swiss francs, and at the same time, the results of the meetings announced at the European Central Bank are also expected, as well as a possible intervention of the Central Bank of Switzerland in terms of the rapid rise of the exchange rate of the Swiss franc.

After obtaining the solutions offered, the public will be duly informed.
